## Esthetic Dentistry for Tots and Teens: Pediatric One-Day Course

7 AGD  
Credits

### Course Summary:

Today's parents demand the restoration of their children and teen's teeth for function and esthetics. Self-image of our patients is very important. Glass ionomers, resinomers, composites, and various types of crowns will be illustrated on children and adolescents. Esthetic facings for stainless steel crowns will be illustrated and chairside/laboratory steps necessary will be given. Esthetic space maintainers will be shown and the participant will learn the ease with which these can be fabricated. Enamel microabrasion, direct-bonded and porcelain veneers will be shown for esthetics for our teenage patients.

### Course Objectives:

- Class I and II Primary Molar Preparation
- Class I and II Primary Molar Restoration
- "Pulpotomy Preparation"
- "Stainless Steel Crown Preparation"
- NuSmile Crown Preparation-- Molar
- "Celluloid Strip Crown Preparation"
